Lancaster Jan 2 1882

Dear Sir.-

Yours of 29th with remittance $61.65 received with thanks. The Confederate cent I will guarantee original but I was misinformed in regard to the number struck which I have learned since cataloguing to have been 55. Mr Haseltine of Phila has the last one on which the die broke. All were issued by Lovett in 1861 though probably without any authority from the Confederate government. Will you please look whether lot 18 was sent with your lots by mistake. It is missing - probably sent by error with some package.

Yours Truly

Dear Sir:-

Among a lot of gold recently purchased by me I found a nearly proof 1798 over '97 Eagle with deep, broad milling - a choice piece. Having been informed that you are at present forming a collection of gold I have taken the liberty to offer the above piece to you at $25. It is one of the rarest varieties of the gold coinage and I think rarer than the variety of this date with the four stars facing but I secured it reasonable and offer it at above cheap rate. Will forward on approval if desired.

Yours &c
